REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art does not fairly suggest a composition comprised of specific ingredients, such as venlafaxine coated on an inert core, polyvinyl pyrrolidone as a separation layer, ethyl cellulose as the controlled release layer with dibutyl sebacate plasticizer, in specific amounts to attain a specific dissolution profile.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

REJOINDER

Claim 47 is directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claim 44, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, is hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a

claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
